Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 01 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Applicants' election dated 11/08/2005 has been received. Applicant also brought to the attention of the Preliminary Amendment dated August 23, 2005 has not been received and reviewed by the Examiner. Thus, the Requirement for Restriction dated October 03, 2005 was hereby vacated and a new office action would be forthcoming clarifying the issues as follow:

Election/Restrictions

1. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1. The species are as follows:

- . species (I): an object-moving mechanism drawn to the first embodiment (claims 9-14 and 23-24).
- . species (II): an object-moving mechanism drawn to the second embodiment (claims 15-20 and 25-26).
- . species (III): an object-moving mechanism drawn to the third embodiment (claims 21-22 and 27).

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Art Unit: 2871

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

2. This application further contains claims directed to the following patentably distinct species of the claimed invention:

. sub-species (a): an object-moving mechanism in which the surfaces of the orientation films being rubbed in the same direction (claims 2 and 6).

. sub-species (b): an object-moving mechanism in which the surfaces of the orientation films being rubbed in different directions (claims 3 ad 7).

Applicant is required, in reply to this action, to elect a single sub-species to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1, 4-5 and 8 are generic.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
